Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Train Derailment, Bloomington, San Bernardino County, SPILL: 18-1701

On 03/15/18 at 0542 hours, the California State Warning Center (CSWC) was notified by Union Pacific Railroad of a train derailment in the West Colton Railyard.

- 2 Loaded lumber cars derailed in the upright position.
- The cars were not part of a train at the time of the derailment.
- No release of hazardous materials, no injuries.
- The derailment was caused by a cross drawbar.
- Re-railment of the cars is ongoing.
- Notifications made per SOP.

Tar Balls, Morro Bay, San Luis Obispo County, SPILL: 18-1698

On 03/14/18 at 1922 hours, the California State Warning Center (CSWC) received a report from the National Response Center (NRC) of large and small tar balls discovered 03/14/18 at 0800 hours, from Cayucos to Morro Rock at Morro Bay, San Luis Obispo County.

- A private citizen from out of state made the report to the NRC.
- CSWC contacted the United States Coast Guard (USCG) Sector Los Angeles/Long Beach and their Pollution Responder investigated the report.
- USCG Pollution Responder determined it to be natural seepage.
- The San Luis Obispo County Environmental Health Duty Officer confirmed this is a natural occurrence in the area and they will follow up in the morning on 03/15/18.
- CSWC made notifications per SOP.

WEATHER OF CONCERN

Weather of Concern

Northern California:

- The National Weather Service is discouraging Sierra travel beginning this afternoon through Friday afternoon.
 - Major travel delays are expected due to periods of heavy snow.
 - Potential for road closures and periods of whiteout conditions.

Southern California:

- Light to moderate showers may cause minor debris flows to Los Angeles County burn areas today.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Liquid water amounts have been impressive with the current storm system with widespread 1 to 3 inches observed. Stormy weather will continue through Friday with some residual lighter showery impacts into Saturday. Snow levels will vary but generally lower to between 3,000 to 4,000 feet. Gusty southerly winds will impact the region today into this evening with general gusts between 30 to 40 mph but locally higher values would be found across the highest ridges across the north and east.

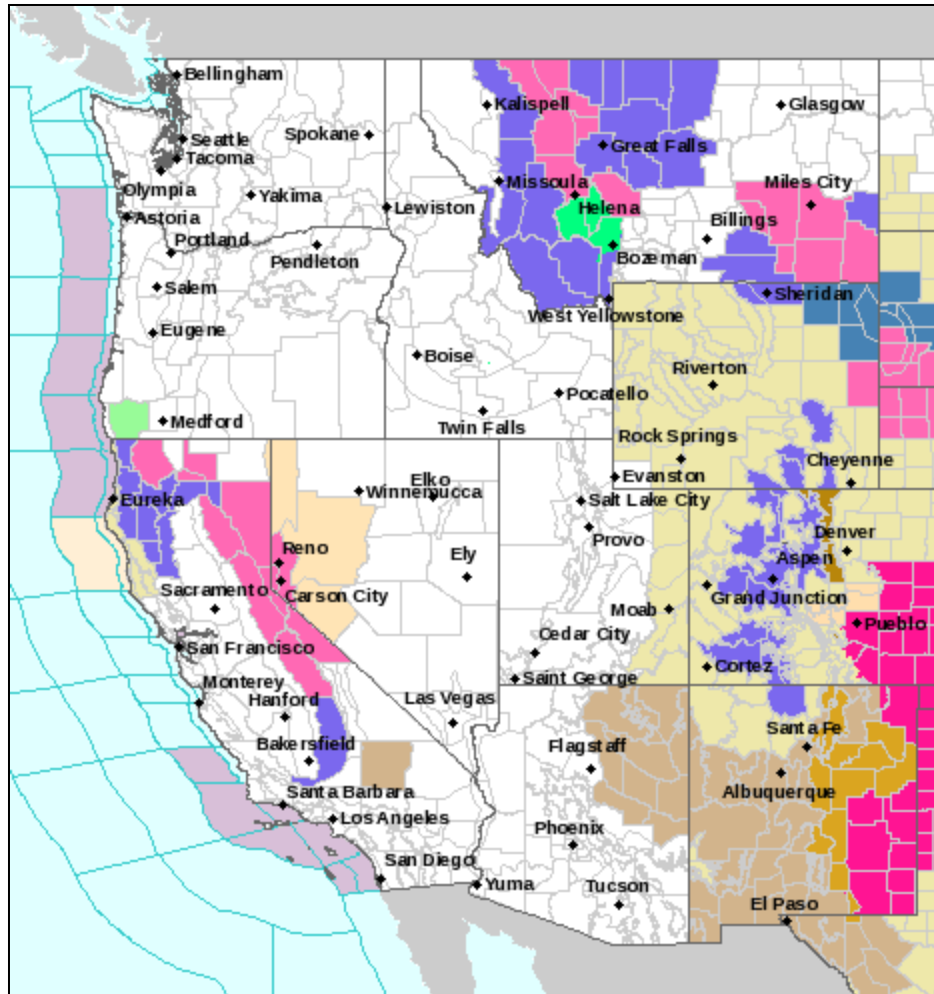

There is a little more clarity that drier conditions would affect the area Sunday and Monday although can't rule out a stray light shower over the higher peaks. The wind flow looks to be on the lighter side.

Still looking at a Pacific low impacting the area during much of next week although the track of the low remains uncertain. Tuesday through Friday is an uncertain period but expect some unsettledness including precipitation, cloud cover and cooler temperatures. Precipitation amounts at this time don't look to be nearly as much compared to the current stormy period.

SOUTHERN CALIFORNIA

Scattered showers will continue to move across the region through Saturday afternoon as a storm off the coast of the Pacific Northwest moves slowly southeast and inland across Northern California. Most locations will receive an additional quarter inch to an inch of rainfall, but the Sierra will receive an additional 1 to 2 inches of rainfall with this storm. The snow level will be mainly between 5,000 and 6,000 feet, but it will drop to between 4,000 and 5,000 feet Saturday. South to west winds of 20 to 30 mph will continue to surface across the wind prone mountain and desert locations through Saturday evening. Temperatures will be below normal and cool a couple degrees each day through Saturday. Maximum temperatures will be in the 40s to low 50s across the mountains and mid 50s to mid 60s in the valleys today. A weak ridge of high pressure will bring a slow warming and drying trend to the region Sunday and Monday. Winds will be light Sunday and Monday. Another potential storm may affect the region Tuesday and Wednesday of next week, with more precipitation and strong south to west winds.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45655, 03/14/18, 0634 hours,** The International Emergency Response Coordination Center (IERCC) reported a SPOT activation on the Pacific Crest Trail in San Diego County, north of Hauser Rd., southwest of Morena Village in the state park. We have been unable to contact the Registered Owner (R/O) thru his cell phone. His emergency contact stated he began his solo hike on 03/10/18 at Campo with no time frame or destination. The R/O is 79 years old, has a pacemaker, and is a stroke survivor taking aspirin as a blood thinner. A full description of the R/O was provided to the San Diego County Sheriff's Dept. who dispatched deputies. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
